The screenshot shows the online quiz interface. At the top left is the logo of the College of Nursing, Macau. The page title is "網上測驗Demo". The main content area displays a question: "How is dementia diagnosed?". The question is worth 20.00 points. The user is asked to "選擇一個答案" (Choose one answer). The options are: a. Mental-status tests, b. Blood tests, c. Neurological tests, d. Structural imaging (e.g. Computer Tomography, functional magnetic resonance imaging), and e. All of the above. On the left side, there is a "Quiz navigation" panel with buttons for questions 1 through 5. Below the navigation panel, there is a "Finish attempt..." button and a timer showing "剩餘時間 0:59:51". A red box highlights the "Quiz navigation" panel and the "Finish attempt..." button. Another red box highlights the question options. A third red box highlights the "往後" (Next) button at the bottom of the question area. Red text annotations are present: "顯示剩餘時間、按題號可以往該題目" (Display remaining time, click question number to go to that question) pointing to the navigation panel, and "作答後按往後" (Click 'Next' after answering) pointing to the "往後" button.

步驟六:

按完最後一題“往後”按鈕或“Finish attempt”後，請檢查所有題目是否完成作答(顯示 Answered)，然後按“全部送出並結束”提交。

The screenshot shows the "Summary of attempt" screen. The page title is "網上測驗Demo". The main content area displays a table with the following data:

試題	Status
1	Answered
2	Answered
3	Answered
4	Answered
5	Answered

Below the table, there is a timer showing "剩餘時間 0:59:03". At the bottom of the screen, there is a button labeled "全部送出並結束". Red text annotations are present: "請檢查所有題目是否完成作答" (Please check if all questions are answered) pointing to the table, and "點擊“全部送出並結束”提交" (Click "Submit all and end" to submit) pointing to the "全部送出並結束" button.

步驟七:

提交後學員能即時查看成績，最後按右上角“登出”以登出系統。

1 How is dementia diagnosed?

得分: 20.00

選擇一個答案

- a. Mental-status tests *x*
- b. Blood tests *x*
- c. Neurological tests *x*
- d. Structural imaging (e.g. Computer Tomography, functional magnetic resonance imaging) *x*
- e. All of the above *✓*

No single test identifies Alzheimer's disease. Laboratory tests help rule out other disorders that may produce similar symptoms. Neurological and mental status tests reveal cognitive function deficits. Please refer to Chapter 1, slides 44 - 52.

不正確
注意本次得分: 0.00 / 20.00
